Fisheries of the Exclusive Economic Zone off Alaska; Salmon Donation Program
AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.
ACTION: Final rule.
SUMMARY: NMFS issues a final rule to implement Amendment 26 to the Fishery Management Plan (FMP) for the Groundfish Fishery of the Bering Sea and Aleutian Islands Area and Amendment 29 to the Fishery Management Plan for Groundfish of the Gulf of Alaska. This rule authorizes a voluntary Salmon Donation Program (SDP) for distribution of Pacific salmon taken as bycatch in the groundfish trawl fisheries off Alaska to economically disadvantaged individuals by tax-exempt organizations through a NMFS-authorized distributor. The SDP’s objective is to reduce waste from discards in the groundfish trawl fisheries.
Under this final rule, the Director, Alaska Region, NMFS (Regional Director) will select one or more tax-exempt organizations to be authorized distributors based on the information submitted by applicants under § 679.26. After review of qualified applicants, NMFS will announce the selection of authorized distributor(s) in the Federal Register. NMFS anticipates that the selection process of (an) authorized distributor(s) will be completed prior to the beginning of the 1996 BSAI pollock nonroe season. Any vessel or processor wishing to retain and process salmon bycatch for delivery to an authorized distributor selected by NMFS must be listed by the authorized distributor as a participant. Any costs resulting from the handling, processing, storing, and delivery of donated salmon to an authorized distributor will be borne by participating vessels and processors. Participation in the SDP is voluntary.
A full description of, and background information on, the SDP may be found in the preamble to the proposed rule published in the Federal Register on May 16, 1996 (61 FR 24750) and in the EA/RIR prepared for this action. Public comments on the proposed rule was invited through July 1, 1996. The U.S. Coast Guard commented that no enforcement or safety concerns would result from the proposed SDP. No other written comments were received during the comment period.
No changes to the proposed rule are made in the final rule except to incorporate the regulatory format into the new consolidated regulations governing the fisheries in Federal waters off Alaska (50 CFR part 679).
CLASSIFICATION
The Regional Director has determined that Amendments 26 and 29 are necessary for the conservation and management of the groundfish fisheries of the BSAI and the GOA and that they are consistent with the Magnuson Act and other applicable laws.
This rule has been determined to be not significant for the purposes of E.O. 12866.
The Assistant General Counsel for Legislation and Regulation of the Department of Commerce certified to the Chief Counsel for Advocacy of the Small Business Administration that this rule would not have a significant economic impact on a substantial number of small entities. The reasons were published in the notice of proposed rulemaking. As a result, a regulatory flexibility analysis was not prepared.
Notwithstanding any other provision of law, no person is required to respond to nor shall a person be subject to a penalty for failure to comply with a collection of information subject to the requirements of the Paperwork Reduction Act (PRA) unless that collection of information displays a currently valid Office of Management and Budget (OMB) control number. This rule contains a collection-of-information requirements subject to the PRA. The collection of this information has been approved by the OMB, Control Number 0648–0316. The rule includes an application to participate as an authorized distributor in the SDP, documentation requirements for the authorized distributor(s) and processors participating in the SDP, packaging requirements for vessels and processors, and identification requirements. Public reporting burden for these collections of information are estimated to average 40, 40, 0.1, and 0.25 hours respectively, per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collections of information. Send suggestions regarding burden estimates or any other aspect of the data requirements, including suggestions for reducing the burdens to Susan J. Salveson (see ADDRESSES) and to the Office of Information and Regulatory Affairs, OMB, Washington, D.C. 20503, Attn: NOAA Desk Officer.
NMFS has determined that this final rule should be effective immediately to provide adequate time for tax-exempt organizations to apply to NMFS to become authorized distributors and for NMFS to review applications, to issue
SDP permits to authorized distributors, and to notify the public in the Federal Register of authorized distributors prior to the beginning of the 1996 BSAI pollock nonroe season, currently scheduled for August 15. An infrastructure has been developed over the past 2 years to provide for the distribution of donated salmon taken incidentally in the BSAI pollock fishery to needy individuals under authority of three successive experimental fishing permits (EFPs). The last EFP expired at the end of the 1996 pollock roe season. The infrastructure for the distribution of donated salmon could be jeopardized if a hiatus occurs in the authority to retain and donate salmon during the upcoming pollock nonroe season. Therefore, the need to implement the final rule in a timely manner to provide adequate time to select authorized distributors prior to the 1996 pollock nonroe season and avoid a hiatus and the fact that participation in the SDP is voluntary constitute good cause under authority contained in 5 U.S.C. 553(d)(3) to make this rule effective immediately.
