SUPPLEMENTARY INFORMATION: The requested permit amendment has been issued under the authority of the Marine Mammal Protection Act of 1972, as amended (16 U.S.C. 1361 et seq.), and the Regulations Governing the Taking and Importing of Marine Mammals (50 CFR part 216).

Permit No. 984–1587 authorized captive research activities on two bottlenose dolphins (Tursiops truncatus) and juvenile California sea lions (Zalophus californianus) undergoing rehabilitation at The Marine Mammal Center through June 7, 2009. The minor amendment (No. 984–1587–08) extends the duration of the permit through September 7, 2009, but does not change any other terms or conditions of the permit.

In compliance with the National Environmental Policy Act of 1969 (42 U.S.C. 4321 et seq.), a final determination has been made that the activity proposed is categorically excluded from the requirement to prepare an environmental assessment or environmental impact statement.

Taking and Importing Marine Mammals; Taking Marine Mammals Incidental to Construction and Operation of Offshore Oil and Gas Facilities in the Beaufort Sea, Alaska
AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.
ACTION: Notice of issuance of a letter of authorization.
SUMMARY: In accordance with the Marine Mammal Protection Act (MMPA), as amended, and implementing regulations, notice is hereby given that NMFS has issued a letter of authorization (LOA) to BP Exploration (Alaska), Inc. (BPXA) to take marine mammals incidental to the production of offshore oil and gas at the Northstar development in the Beaufort Sea off Alaska.
DATES: This Authorization is effective from July 7, 2009, through July 6, 2010.
ADDRESSES: The LOA and supporting documentation may be obtained by writing to P. Michael Payne, Office of Protected Resources, NMFS, 1315 East-West Highway, Silver Spring, MD 20910, or by telephoning one of the contacts listed here.
FOR FURTHER INFORMATION CONTACT: Candace Nachman (301) 713–2289 or Brad Smith (907) 271–3023.
SUPPLEMENTARY INFORMATION: Section 101(a)(5)(A) of the MMPA (16 U.S.C. 1361 et seq.) directs NMFS to allow, on request, the incidental, but not intentional, taking of small numbers of marine mammals by U.S. citizens who engage in a specified activity (other than commercial fishing) within a specified geographical region, if certain findings are made by NMFS and regulations are issued. Under the MMPA, the term “take” means to harass, hunt, capture, or kill or to attempt to harass, hunt, capture, or kill marine mammals.
Authorization may be granted for periods up to 5 years if NMFS finds, after notice and opportunity for public comment, that the taking will have a
negligible impact on the species or stock(s) of marine mammals and will not have an unmitigable adverse impact on the availability of the species or stock(s) of marine mammals for subsistence uses. In addition, NMFS must prescribe regulations setting forth the permissible methods of taking and other means of effecting the least practicable adverse impact on the species and its habitat, and on the availability of the species for subsistence uses. The regulations also must include requirements pertaining to the monitoring and reporting of such taking. Regulations governing the taking of marine mammals incidental to construction and operation of the offshore oil and gas facility at Northstar became effective on April 6, 2006 (71 FR 11314, March 7, 2006), and remain in effect until April 6, 2011. For detailed information on this action, please refer to that document. These regulations include mitigation, monitoring, and reporting requirements. The six species of marine mammals that BP may take in small numbers during construction and operation of the Northstar facility are bowhead whales, gray whales, beluga whales, ringed seals, spotted seals, and bearded seals.

Summary of Activity and Monitoring

On May 5, 2009, NMFS received a request from BPXA for a renewal of an LOA issued on July 1, 2008, for the taking of small numbers of marine mammals incidental to oil production operations at Northstar, under the regulations issued on March 7, 2006 (71 FR 11314). This request (BPXA, 2009) contains information in compliance with 50 CFR 216.209, which updates information provided in BPXA’s original application for takings incidental to construction and operations at Northstar. BPXA also submitted the required activity and monitoring report under the 2008–2009 LOA.

Summary of Activity and Monitoring Under the 2008–2009 LOA

One offshore ice road was built during the 2007–2008 ice-covered season. Helicopters made 222 round trips to Northstar during the 2007–2008 ice-covered season to transport crew and operations to and from the facility and recomme
that the activities described in the LOA will result in the taking of no more than small numbers of bowhead whales, beluga whales, ringed seals, and, possibly California gray whales, bearded seals, and spotted seals and that the total taking will have a negligible impact on these marine mammal stocks and would not have an unmitigable adverse impact on the availability of these species or stocks for taking for subsistence uses. This LOA will be renewed annually based on review of the annual monitoring report.
