§ 82.204 Federal agency procurements.

(a) No later than [one year from the date of final publication], each department, agency and instrumentality of the United States shall conform its procurement regulations to the requirements and policies of title VI of the Clean Air Act, 42 U.S.C. 7671–7671g. Each such regulation shall provide, at a minimum, the following:

(1) That purchases of class I and class II substances, or of products made with or containing such substances, shall maximize the substitution of safe alternatives to the maximum extent practicable, either by the substitution of safe alternatives, or by the purchase of products made with or containing safe alternatives, identified under 42 U.S.C. 7671k;

(2) That, consistent with the phaseout schedules for ozone-depleting substances, no purchases shall be made of class II substances, or products containing class II substances, for the purpose of any use prohibited under 42 U.S.C. 7671d(c);

(3) That all active or new contracts involving the performance of any service or activity subject to 42 U.S.C. 7671g or 7671h or regulations promulgated thereunder include, or be modified to include, a condition requiring the contractor to ensure compliance with all requirements of those sections and regulations;

(4) That no purchases shall be made of products whose sole is prohibited under 42 U.S.C. 7671h, except when they will be used by persons employed to service vehicles, and no purchase shall be made of nonessential products as defined under 42 U.S.C. 7671i;

(5) That proper labeling under 42 U.S.C. 7671j shall be a specification for the purchase of any product subject to that section.

(b) For agencies subject to the Federal Acquisition Regulation, 48 CFR part 1, amendment of the FAR consistent with this subpart, shall satisfy the requirement of this section.

§ 82.206 Reporting requirements.

(a) No later than [one year after the effective date of this rule], each agency, department, and instrumentality of the United States shall certify to the Office of Management and Budget that its procurement regulations have been amended in accordance with this section.

(b) Certification by the General Services Administration that the FAR has been amended in accordance with this section shall constitute adequate certification for purposes of all agencies subject to the FAR.

Control of Air Pollution From New Motor Vehicles and New Motor Vehicle Engines; Nonconformance Penalties for Heavy-Duty Engines and Heavy Duty Vehicles, Including Heavy Light-Duty Trucks

AGENCY: Environmental Protection Agency (EPA).

ACTION: Re-opening of comment period.

SUMMARY: This action announces the re-opening of the comment period for the Notice of Proposed Rulemaking (NPRM) entitled "Control of Air Pollution From New Motor Vehicles and New Motor Vehicle Engines; Nonconformance Penalties for Heavy-Duty Engines and Heavy Duty Vehicles, Including Heavy Light-Duty Trucks", which was published on May 29, 1992 (57 FR 22675). The original public comment period for this action ended on June 29, 1992. In the NPRM, EPA proposed that a Nonconformance Penalty (NCP) be offered for particulate matter (PM) standards applicable to 1994 and later model year petroleum fueled urban bus heavy-duty diesel engines (HDDEs) and for heavy-duty engines for use in vehicles other than urban busses. On March 24, 1993 (58 FR 15781), EPA published the final 1994 urban bus regulation setting the PM standard at 0.07 g/BHP-hr, rather than the proposed 0.05 g/BHP-hr. In light of the less stringent standard, EPA is reconsidering the need for offering NCPs for the 1994 and later model year urban bus HDDE standard. The comment period for this proposed rule will be re-opened for two weeks in order to accommodate comments as to whether or not the generic NCP criteria continue to be met for the finalized urban bus standard.

DATES: Comments on this issue will be accepted until April 26, 1993.

FOR FURTHER INFORMATION CONTACT: Mr. Anthony Erb, Manufacturing Operations Division (6405), U.S. Environmental Protection Agency, 401 M Street SW., Washington, DC 20460, Telephone: (202) 233–9259.

SUPPLEMENTARY INFORMATION: For further information on this matter, please refer to EPA's May 29, 1992 Notice of Proposed Rulemaking at 57 FR 22675.

Michael H. Shapiro,
Acting Assistant Administrator for Air and Radiation.

BILLING CODE 6550-50-P

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

50 CFR Part 675

Groundfish of the Bering Sea and Aleutian Islands

AGENCY: National Marine Fisheries Service (NMFS), NOAA, Commerce.

ACTION: Notice of availability of an amendment to a fishery management plan and request for comments.

SUMMARY: NMFS issues this notice that the North Pacific Fishery Management Council (Council) has submitted Amendment 28 to the Fishery Management Plan for the Groundfish of the Bering Sea and Aleutian Islands Area (BSAI) for Secretarial review and is requesting comments from the public. Copies of the amendment may be obtained from the Council (see ADDRESSES).

DATES: Comments on the FMP amendment should be submitted on or before June 7, 1993.

ADDRESSES: Comments on the FMP amendment should be submitted to Ronald J. Berg, Chief, Fisheries Management Division, Alaska Region, NMFS, P.O. Box 21668, Juneau, Alaska, 99802 (Attn: Lori Gravel), or delivered to the Federal Building Annex, suite 6, 9109 Mendenhall Mall Road, Juneau, Alaska.

Copies of the amendment and the environmental assessment/regulatory impact review/initial regulatory flexibility analysis prepared for the
amendment are available from the North Pacific Fishery Management Council, P.O. Box 103136, Anchorage, Alaska 99510 (telephone 907–271–2809).

SUPPLEMENTARY INFORMATION: The Magnuson Fishery Conservation and Management Act (Magnuson Act) requires that each Regional Fishery Management Council submit any fishery management plan or plan amendment it prepares to the Secretary of Commerce (Secretary) for review and approval, disapproval, or partial disapproval. The Magnuson Act also requires that the Secretary, upon reviewing the plan or amendment, must immediately publish a notice that the plan or amendment is available for public review and comment. The Secretary will consider the public comments received during the comment period in determining whether to approve the plan or amendment.

Amendment 28 would establish three new management districts within the Aleutian Islands Subarea of BSAI. In addition, the proposed rule would amend the Final 1993 Specifications of Groundfish acceptable biological catch (ABC) and total allowable catch (TAC) for Atka mackerel, and make technical corrections and clarifications to existing regulations. Establishment of new subareas will increase management flexibility in apportioning TACs and disbursing fishing effort. Amendment of the Atka mackerel ABC and TAC would facilitate an increase in Atka mackerel TAC by apportionment from the nonspecific operational reserve, if proposed Amendment 28 is implemented in 1993, and if such an increase is recommended by the Council. Technical amendments to regulations are necessary to incorporate the proposed districts, and to improve accuracy and clarity.

List of Subjects in 50 CFR Part 675

Fisheries, Reporting and recordkeeping requirements.

Authority: 16 U.S.C. 1801 et seq.

David S. Crestin,
Acting Director, Office of Fisheries Conservation and Management, National Marine Fisheries Service
